

# County of College Of Morris

## *A path to college success*

The Dover College Promise (DCP) is a grant-funded educational partnership between County College of Morris (CCM), The Educational Center (TEC) Inc., and the Dover School District to offer motivated low-income middle and high school students with the opportunity to secure a college path.

DCP is committed to helping Dover students and their families address academic and financial challenges to furthering a post-secondary education. Students will participate in a series of activities designed to prepare them to navigate the college application process, sharpen their academic skills, and help them become master students. DCP students will receive a CCM Foundation scholarship to assist in covering their college tuition, securing their path to CCM college success.

The Educational Center, located in Dover, will facilitate educational workshops, tutoring services, field trips, and community-based service-learning projects. Assisting with those efforts will be CCM faculty, students, and staff, who will serve as mentors. Additionally, DCP will offer bi-lingual (Spanish) parent/guardian information sessions to help support the family's potential college-bound student.

## **Dover College Promise Program Eligibility Requirements**

- Student must be currently enrolled in the Dover School District.
- Student must be referred by a guidance counselor or teacher.
- Student must be on a free or reduced lunch program.
- Student's GPA must be between 2.0 and 2.7 (based on a 4.0 scale).
